June 27, 2019

Mr. Dan Weseman
Sport Performance Aviation, LLC (SPA)
1528 Virgils Way, Ste 8
Green Cove Springs, FL. 32043

Dear Mr. Dan Weseman:

The Federal Aviation Administration (FAA), National Kit Evaluation Team (NKET) completed an on site evaluation of the Panther on June 25, 2019. The kit is defined by the Sport Performance Aviation, LLC (SPA) Panther Aircraft Builder Manual v2.8.18 dated April 01, 2019. It was determined that the kit may allow an amateur builder to meet the major portion requirement of title 14, Code of Federal Regulations part 21, Certification Procedures for Products and Articles, § 21.191(g).

We will advise the Aircraft Certification Service's Certification Procedures Branch to add the kit to the Revised Listing of Amateur-Built Aircraft Kits (Kit List) located on the FAA website. This evaluation does not mean that the Panther aircraft, or Sport Performance Aviation, LLC (SPA) Aircraft is FAA "*certified, certificated, or approved,*" and it is inappropriate to represent either as such.

Sport Performance Aviation, LLC (SPA) Aircraft should notify this office in writing if ownership of the company changes, and or if there are changes made to the evaluated kit that may affect its potential to meet the major portion requirement. Failure to notify this office may result in removal of the kit from the Kit List.

If you have any questions, please contact the Southwest Manufacturing Inspection Office (MIO) Branch at (817) 222-5180.

Sincerely,

Micheal Sloat
Manager, Southwest MIO Branch
